Summer Term 2014 - 29th April

GARDENS

Following yesterday's ECO Newsletter, we would like to ask parents/carers/friends/family if they would be able to come and help in our school gardens. As you know we have to re-site our Woodland Area and trying to fit the work in with our many planting activities and normal school life is proving very difficult. We received our award gift of plug plants today (earlier than expected) which has also increased our workload.

We only have a month before the next judges come to look at our gardens for both the Horley in Bloom and South and South East in Bloom competitions. If you would be happy to be left to yourself for some quiet gardening in our Woodland Area we would be VERY grateful for the help. If you are free, even if only for half an hour, during an afternoon, prior to picking up your child please contact Mrs Dodd to agree a day/time.

Thank you!
