No 3 - End of Spring Term

## Summer Term ~ Grounds

You may have noticed how pretty our planters are looking by the front of the school, under the office window but we still have gaps elsewhere.

Our Eco Warriors have agreed that they would like to invite Flower Fairies in to our school grounds again this year to fill up these gaps.

For those of you that don't know, this is where we prepare our planters and additional pots in the school playground ready for planting. We then invite parents to come along, just before drop off in the mornings or at home time, with their children and plant their choice of flowers in the designated places. The majority of the children will not be aware that these plants are there until they go out at playtime or come into school again the next day. Thus, a Flower Fairy has visited.

The pupils love to take part in this and look forward to the surprise of finding more in the grounds each day.

We allow two weeks for parents to take part in the planting. Please give us the first day back to make sure that each space is clearly marked but you can start to plant from the end of the day.

Please bring your plants along from our return from the Easter holidays up until Friday 28<sup>th</sup> April.

Each Flower Fairy that visits our ground will have their own Flower Fairy to hang on the Eco Tree in the Link so please remind them to let Mrs Dodd know if they have planted.

We look forward to a bright and welcoming entrance. Thank you for your help.
