

OUR READING SCHEMES

We believe at Charlwood Village Primary School that all children from EYFS through to KS2 should be provided with the opportunities to develop a love of reading and an appreciation of literature for both enjoyment and information. We are committed to developing an environment which actively supports and encourages reading for pleasure.

We therefore use several different Reading schemes to support our children's learning which are primarily:

- Oxford Reading Tree - Code, Project X, Literacy Web
- Rigby Star

In addition to these Reading schemes, children also have access to reading e-books both in school and at home. Children use Bug Club which we subscribe to annually.
